All students should finalise their training places for 'Industrial Training', well before the start of the training period. For this, they may download the 'request letter' from 'Know Your Student' (KYS) app/portal or from college website and after filling it, can get the signature of Dean (T & P). Duly signed 'confirmation letter' from the company / trainer shall then be uploaded over KYS portal and the hard copy should be deposited back in the T&P cell for final confirmation.

Training shall stand cancelled in case the students fail to upload the duly signed 'confirmation letter' over 'KYS portal' as well as in submitting the hard copy of 'confirmation letters' in the T & P cell within two weeks from the start of training semester.

Training shall not be changed in any case after submission of confirmation letter, and the students are thereby advised to get full details of the project and its status before finalising the site.

***Maximum three students can enrol for one industry/company/site for the training.**
