All students should finalise their training places for 'Industrial Training', well before the start of the training period. For this, they may download the 'request letter' from college website and after filling it, can get the signature of undersigned and then Dean (T & P). Duly signed 'confirmation letter' from the company / trainer shall then be deposited back in the T & P cell for final confirmation.

Training shall stand cancelled in case the students fail to submit 'confirmation letters' in the T & P cell before start of training.

Training shall not be changed in any case after submission of confirmation letter, and the students are thereby advised to get full details of the project and its status before finalising the site.

**\*Maximum three students can enrol for one industry/company/site for the training.**
